

FUTURE CAREERS BRIDGE PROGRAM

CAREER TEST RESULT

PRIVATE AND CONFIDENTIAL

Prepared for Thanuja

Date taken :Apr 12 2023

ADDRESS - No. 90A, Jayamangala Rd, Nugegoda, Colombo

ABOUT THIS REPORT

This assessment has been produced by CareerMe. It uses psychometric measures to identify your personal strengths, skills and potential vocational interests. This report can start you on the journey of matching your interests with careers.

You should find this report a valuable aid when used together with other data sources. It is not intended to be used in isolation. Take the time to discuss your results with the people who are important to you such as your family and career advisor. One of the greatest advantages is to identify areas of strengths that you should follow up.

Your personalized report is divided into several sections. The first is your occupational profile, explaining your personality in relation to the workplace. The second section is a summary of suitable IT career streams for you followed by a summary of potential occupations in other industries, based on your vocational personality type. Finally, the report recommends further steps in selecting and preparing a roadmap to reach your desired career.

The report shows high accuracy if the questionnaires have been answered honestly. However, it will be invalid if there has been a deliberate attempt to deceive. This report is designed to expand your career options and give you many paths to explore that match your interests.

YOUR OCCUPATIONAL PROFILE

Our career test measures 6 types of interest: Realistic (R), Investigative (I), Artistic (A), Social (S), Enterprising (E), and Conventional (C). Your total scores for the 6 areas are shown below. The interest areas with the three highest scores are used to generate your occupational personality type (or RIASEC type). This is represented as a three-letter code called the Interest Code.

YOUR INTEREST CODE

Social - S - 85%

Artistic - A - 84%

Enterprising - E - 75%

Your highest interest area is Social followed by Artistic and Enterprising.

YOUR INTEREST CODE EXPLAINED

Your occupational personality type is a combination of the above three interest areas. A detailed explanation of your personality in relation to your highest interest area (Social) is provided below. Brief descriptions of your second and third highest interest areas are also present. To understand your specific combination of interests in more detail, talk to our career advisor.

SOCIAL - THE HELPERS

Characteristics

You are friendly, outgoing, responsible and concerned with the welfare of others. You see yourself as understanding, helpful, cheerful and skilled in teaching but lacking in mechanical ability. You seek opportunities to work as part of a team, solve problems through discussions and utilize interpersonal skills. You genuinely enjoy working with people, and communicate in a warm and tactful manner that can be persuasive.

Careers

You prefer a work environment that encourages teamwork and allows for significant interaction with others. The Social type is best suited to join positions that require interpersonal and communication skills. Dealing with others is the social type's special skill. They excel in customer support, business relationship management, human resources, training and development, recruitment and mentoring others.

Likes

You like to form close interpersonal relationships with others, and enjoy teaching, helping, counseling and solving social problems. You also enjoy participating in group activities and are more interested in dealing with people, than ideas, data or things.

Dislikes

You tend to dislike physical work, impersonal work that deals with data and things, and activities that use machines and tools like building and repairing.

Skills and Strengths

Planning, supervising group activities, helping people with problems and mediating disputes are your strong points.

ARTISTIC

The Artistic type is most suited for occupations that are at the cross-section of IT and design, bringing their creative flair to technology. Such jobs include web design, graphic design and user interface design. They are competent in thinking outside the box.

ENTERPRISING

The Enterprising type has high potential for leadership and working independently. This type is suited for positions such as business development, innovation, new product generation and management. They can do well as an IT services manager, business intelligence developer and product innovator.

IT CAREER STREAM SUGGESTIONS

Potential IT Career Streams that are matching for your occupational profile (Social - Artistic - Enterprising) are listed below.

Read and identify an IT career stream that is most suitable for you and then build your IT Career Roadmap.

CODE	STREAM	INFORMATION
SEC	Customer Service Operations	Customer Service Operations involve being responsible for customer satisfaction, addressing customer complaints, and improving the customer experience as a whole
ESC	Human Resources	Human Resources (HR) involves overseeing all things related to managing and developing an organization's human capital – its employees. It includes a variety of functions such as recruiting and staffing, compensation and benefits, training and development, and labor relations. A degree in human resource management or business management with some understanding of workplace psychology is helpful to succeed in this field

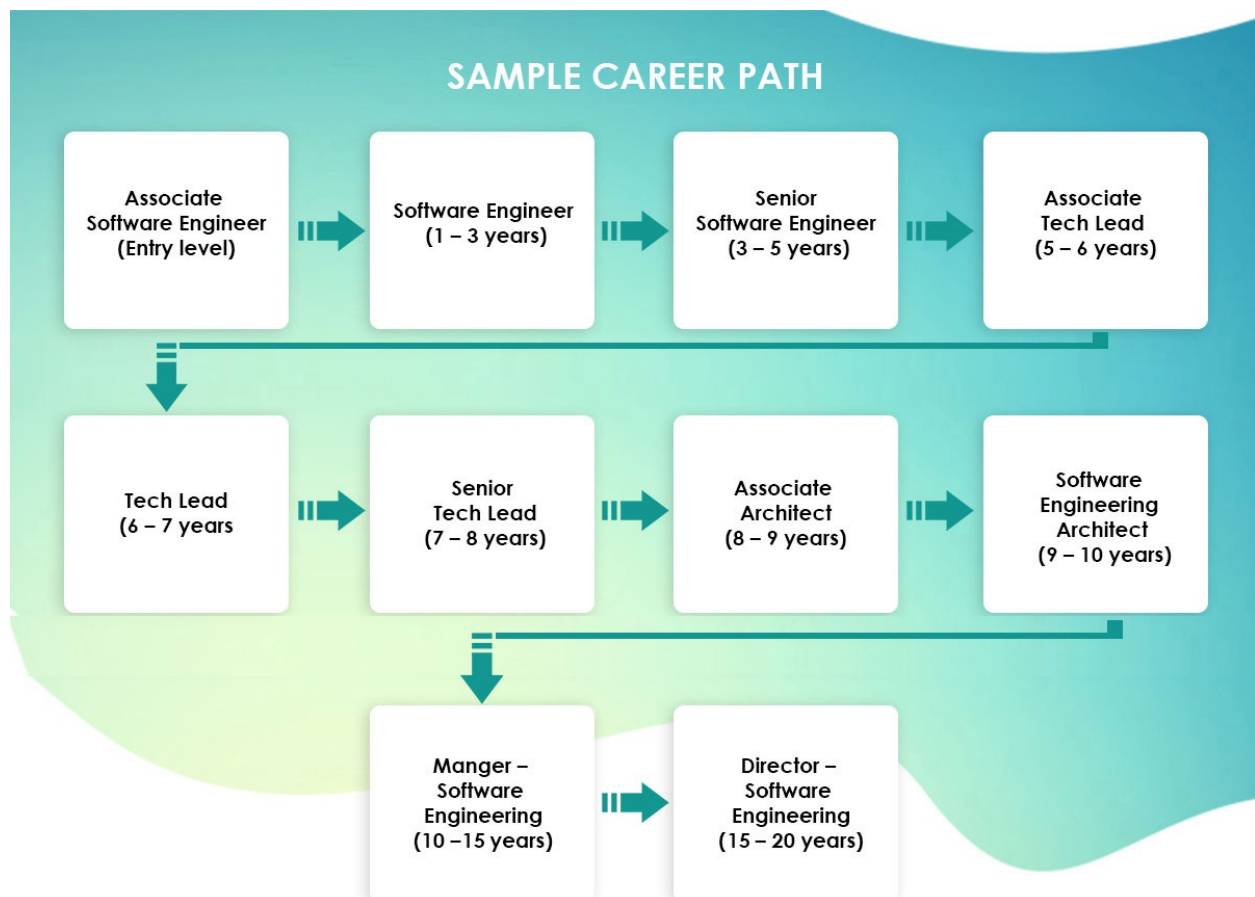

You can also read about the other available IT streams through the following link:

Entering the world of work is a challenging process. There are many careers out there to choose but only a few will fit your interests. After you decide on a career you also need to identify your education options to achieving that career. Below are some questions to consider when picking a career path.

Below are some questions to ask your interviewer and mentors to learn more about how you can succeed in the IT industry.

- 1). What is a typical work week for the occupation?**
- 2). What are the minimum educational requirements?**
- 3). What are the pros and cons about the occupation?**
- 4). Will this occupation meet my needs? (money, relationships, personal development, ambitions etc.)**

Everyone has these questions and everyone can benefit from assistance. Our career advisors are equipped to help you with this process.
